

PRIMARY CARE

Health is everything. Don't settle.

Unlimited virtual medical care available **24/7, 365 days/year** including evenings and weekends

Same-day consultations by text, phone, or video for increased convenience

Safe, non-urgent medical care for a **wide range of health concerns**

Personalized follow-ups after every consultation to ensure the member is on the path to recovery

In-app prescription renewals and refills

Concierge-level navigation **support for all referrals** to in-person specialists when needed

Dialogue's complete virtual healthcare solution reduces barriers to quality care

>50% of Canadians can't schedule a same-day or next-day doctor's appointment

1 in 3 Canadians wait six or more days to be seen by a family doctor

2 in 3 Canadians' only option for off-peak medical care is visiting an emergency department

Increased health risks can lead to higher chances of **leave of absence**

Increased **absenteeism and decreased productivity** when care takes travel and time away

Fast access to the largest, most experienced and bilingual medical team in Canada for non-urgent medical issues

An **all-in-one patient journey** to address both physical and mental health issues to avoid fragmented care across multiple health providers

Industry-leading, **best-in-class technology** to drive an efficient patient experience, reducing long wait times and time away for doctor appointments

Humanized Healthcare™

Smart humans + powerful technology = real organizational impact
